Transforming Cardiac & Cancer Care

Integrating MyoStrain[®] into Cardio-Oncology Practice

This roundtable will explore the benefits and practical applications of MyoStrain, emphasizing its impact on enhancing diagnostic accuracy and improving patient outcomes in cardio-oncology.

1. Understand the best practices for integrating Cardiac Magnetic Resonance into clinical protocols to ensure optimal patient care and outcomes
2. Recognize the value of adding MyoStrain[®] to routine clinical practice, improving the precision of cardiovascular assessments and patient management
3. Gain insights from experts on the practical aspects of adopting MyoStrain[®]
4. In-depth analysis and discussion of clinical cases to illustrate the practical applications of MyoStrain[®] in cardio-oncology and discuss therapeutic strategies for managing cardiotoxicity

AGENDA

- | | |
|-------------|--|
| 13:45 | - Welcome
Chair: Alexander R Lyon, Chiara Bucciarelli |
| 13:50 14:05 | - Introduction to MyoStrain [®] Technology
Eliseo Vañó |
| 14:05 14:20 | - Tips and tricks to facilitate the implementation of MyoStrain [®] testing in clinical practice
Beatriz López Melgar |
| 14:20 14:30 | - Q&A |
| 14:30 15:10 | - Interactive clinical case discussion
Speakers: Beatriz López Melgar, Eliseo Vañó |
| 15:10 | - Closing remarks |
